President's Report

Vahan Margaryan CPD, GPD President

Hello fellow ASPE LA members,

I hope this message finds you well.

The annual ASPE LA Golf Tournament was held on April 17, 2026. We would like to thank the engineers, vendors, sponsors, and participants for their generous support. Special thanks go to our dedicated Golf Committee, led by Thura

Zin, whose hard work helped make this event possible, and to our volunteers for their valuable efforts throughout the day. The tournament was a great success, highlighted by excellent networking opportunities, product showcases, friendly competition, and outstanding weather. We are grateful to everyone who helped make it a memorable event and appreciate the positive feedback from attendees, many

AMERICAN SOCIETY OF PLUMBING ENGINEERS LOS ANGELES CHAPTER

May 13, 2026, Meeting

“Technology & Innovations”

**By Distributed Energy Solutions (DES), Efficiency Solutions Engineering (ESE)
LADWP**

WHAT YOU WILL LEARN:

The presentation will cover the following topics, with time for questions:

- Water Conservation, Pyramid of New Water Resources, LADWP UWMP Conservation Efforts and Historical Data
- LADWP Water Quality Division
- Energy Conservation, Energy Efficiency, Pyramid of building Electrification and Pyramid of Demand Side Management

THE SPEAKERS:

- Armen Saiyan
- Benjamin Wong
- Johnathon Leung
- Amir Tabakh
- David Jacot

If you have additional questions or needed information on this presentation, you can reach him at: amir.tabakh@ladwp.com.

MEETING LOCATION:

In Person:

**La Kretz Innovation Campus
525 S Hewitt St, Los Angeles, CA 90013**

For more information, visit our website
[@www.aspela.com](http://www.aspela.com).

MEETING SCHEDULE:

4:30 pm – Check in
5:00 pm – Facilities, Labs tour (1st group)
5:30 pm – Facilities, Labs tour (2nd group)
6:00 pm – Dinner served
6:30 pm – Presentation
8:30 pm – Final comments
9:00 pm – Check out

COST:

Meeting Fee:

LADWP Sponsored event - ASPE members and affiliates are granted complimentary admission. Limited seating - RSVP is required.

RSVP Online:

Continued from page 1

of whom commented on the organization, welcoming atmosphere, and connections made throughout the day.

Due to technical issues, the ASPE Los Angeles Chapter and ASPE Orange County Chapter have postponed the Heat Pump Seminar with Mr. Saum Nour to September 16. The event will still take place at Steven's Steakhouse as originally planned. The venue deposit has already been paid, and the event flyer will be distributed once finalized by both the LA and OC boards. Please note that seating is limited, and early registration is strongly encouraged. Engineers will be given priority on a first-come, first-served basis. The registration fee is \$30, and attendees can look forward to tabletop displays for hands-on heat pump demonstrations.

Our May meeting is scheduled to take place at the LADWP La Kretz Innovation Campus. Mr. Amir Tabakh, Vice President-Legislative, will serve as the moderator for a distinguished panel discussion featuring speakers from LADWP: Armen Saiyan, Benjamin Wong, Johnathon Leung, and David Jacot. The panel will explore topics related to efficiency and its influence on plumbing design and the broader industry. A facility tour will also be available. Please visit our website to view the meeting flyer, save May 13, 2026, on your calendar, and join us for this important event. An RSVP is required, as the attendee list must be shared with the facility one week prior to the event. Entry will not be permitted without an RSVP.

The ASPE LA Chapter is also preparing for several upcoming events. The Family Picnic is planned for September, with the Picnic Committee currently finalizing the location

Representing

- Submersible, vertical, and dry pit sewage and sump pumps; stainless steel and high-temperature options
- Condensate return, boiler feed, circulating pumps, variable-speed EC motors and controls
- Lift stations, submersible and vertical grinder pumps, "Slicer" pumps, vortex pumps, "Scum Blaster" systems
- High-efficiency water pressure booster system packages, UL and NSF certified

- Submersible and dry pit non-clog sewage, effluent, and wastewater pumps
- Grinder pumps, cutter pumps, vortex, jacketed pumps, and portable dewatering pumps
- High temperature and corrosion-resistant pumps

- Packaged variable and constant speed pumping systems since 1962
- Domestic water, HVAC, irrigation, water recycling, and fire pump packages, UL- and ETL-listed
- [Emergency water storage systems for critical facilities](#)
- Custom engineering and design capabilities

- In-line wastewater pumps eliminate the wet well with patented technology
- Lower installation and maintenance costs, and reduced ground excavation
- Patented DIPCut® impeller/shredder cuts fibrous materials and other solids
- Dramatically reduced downtime from clogged pumps
- Prevents sand and grease accumulation
- Eliminates hazardous environment classification

- Air-operated, clog-proof, odor-free Pneumatic Ejectors
- Self-priming Diaphragm Pumps for viscous liquids
- High-pressure positive displacement Plunger pumps

HISHITANK

- Fiberglass reinforced plastic (FRP) and stainless steel above ground water storage tanks
- Typical uses: Potable water, greywater, rainwater, recycled water, irrigation, fire protection
- ICC Certified to AWWA D121-12, IAPMO PS 52-2019, IAPMO/ANSI Z1002, ANSI/NSF/CAN 61
- Modular design is ideal for retrofits and areas with limited access or irregularly shaped spaces
- Over 50 years experience and installations in more than 30 countries

- AQUALOOP Greywater, Rainwater, and Stormwater Treatment
 - 6 Log Reduction of Bacteria (99.99999%) and 99.7% Virus Removal
 - NSF 350 Certification
- PURAIN Self-Cleaning Pre-Filters for Rainwater Collection Systems
- DRAINMAX Tunnel Infiltration Products for On-Site Detention

- Sump & utility, effluent, double-seal grinder, and non-clog sewage pumps
- Fiberglass basins and packaged lift stations
- Control panels; float switches & alarms; backup systems; check valves; guide rail components

- Advanced oxidation process (AOP) controls biofilm, biofouling, scaling, and corrosion
- Bio-hydrox in use for Legionella remediation in over 30 states
- NSF/ANSI/CAN 60 Drinking Water Treatment Chemicals certified
- Does not create disinfection byproducts (DBP) as defined by EPA
- Fully automated treatment process - no requirement for highly trained operators

- Bypass and diverter valves for rainwater, greywater, and water source reuse applications
- IAPMO R&T tested for pressure, life cycle performance, and materials
- UL, IPC, and ASTM certifications
- Complies with Green Building Codes, Uniform and California Plumbing Codes

ACCESSORIES:

- Control panels, alarms, level sensors
- Fiberglass sump basins
- Custom steel basins, covers, and frames
- Elevator sumps, holding tanks, and alarms
- Grease waste transfer systems
- Triple duty and butterfly valves
- Suction diffusers
- ASME expansion tanks, air separators

SERVING THE BUILDING TRADES SINCE 1962

Not all “washdown diversion systems” are created equal.

Appearance isn't performance. Look-alike washdown diversion systems may resemble proven designs, but lack the reliability to protect stormwater systems. Fox Environmental Systems is the original engineered solution – ***trusted, tested, and proven.***

Why Engineers Specify Fox Environmental

Protecting California's stormwater for over 40 years.

Proven in the Field - Over 5,000 Fox systems installed

Certified Performance - IAPMO

Certified - IGC 234-2016, File #10153

Stocked in Anaheim, California

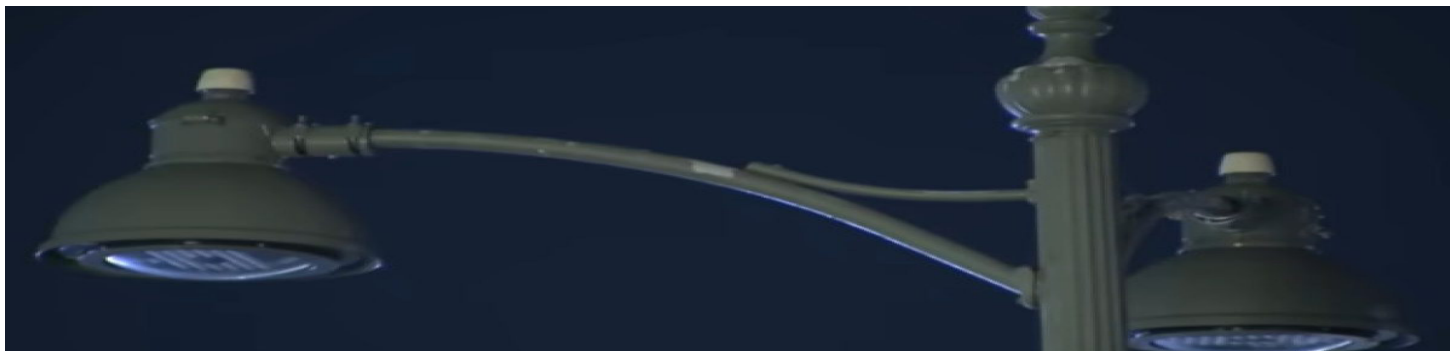

Specify with *confidence*. Specify *Fox Environmental Systems*.

SAY WHAT? Los Angeles Proposes New TAX to Pay to Fix Street Lights Broken by Copper Wire Thieves

By Mike LaChance of The Gateway Pundit

The city of Los Angeles has a major street light problem. Thousands of the lights are out because thieves strip them of copper wire which they then turn around and sell for cash.

To deal with this problem and fix the lights, the city government is proposing a new TAX on the law abiding citizens who did not steal the copper wire. Can you even believe this?

The city wants to punish the people who didn't ruin the street lights and make them pay to fix it. Unreal.

FOX 11 in Los Angeles reports:

New Representative: Mainline Sales

One Mission. One Focus. No Distractions.

Emergency equipment isn't just what we do. It's all we do. Your safety is too important to entrust to just anyone. All Guardian emergency eyewash and shower products are inspected, fully assembled, and 100% water-tested in our Chicago facility, which means you receive the most reliable emergency equipment each time, every time. Your safety isn't just a priority. It's our only priority.

Technical Report

BY Thura Zin CPD, GPD

Hello fellow ASPE LA members,

I hope this message finds you well.

The ASPE Los Angeles Chapter held its monthly meeting on April 8, 2026, at the Courtyard by Marriott in Burbank. On behalf of the ASPE-LA Board of Directors, we extend our sincere appreciation to Mr. Steve Kwiatkowski of AIRpipe USA for his informative presentation, “Compressed Air Systems.” We were pleased to have 45 ASPE members and design professionals in attendance and thank everyone for their continued support and participation. If you would like a copy of the presentation, please feel free to contact us.

Our upcoming May meeting will take place on May

13, 2026, at the LADWP La Kretz Innovation Campus in Los Angeles. This meeting will feature a panel discussion on “Technology & Innovations,” presented by Distributed Energy Solutions (DES) and Efficiency Solutions Engineering (ESE) of LADWP. Featured speakers include Mr. Armen Saiyan, Mr. Benjamin Wong, Mr. Johnathon Leung, Mr. David Jacot, and ASPE-LA Vice President-Legislative, Mr. Amir Tabakh. The discussion will cover topics including water conservation, LADWP water quality initiatives, and energy efficiency strategies such as building electrification and demand-side management. Prior to the meeting, attendees will have the opportunity to participate in facility lab tours, with check-in beginning at 4:30 PM and tours scheduled for 5:00 PM and 5:30 PM. Please refer to the event flyer for additional details and remember that an RSVP is

For-DESIGN ENGINEERS
LOOKING AT SOLUTIONS
FOR OUTDOOR WASH
DOWN POLLUTION

Re: Outdoor Wash Down Pollution Solutions

Hello Design ENGINEERS, **we have a onetime fix for your outdoor wash down pollution problems.**

We have products for all types of washdown areas such as Beach, Deck & Pool Showers, Fire Truck washing, Outdoor Cooking areas, Parking lot runoff, Dog Parks and Kennels, Dog Grooming, Animal shelters, Chemical washdown Showers for First Responders and all other imaginable **OUTDOOR** washing sites.

We have built and supplied pollution solutions for **49** years. Our Diversion products are **American Made** in Mechanicsville, VA, **Lead Free Brass or Stainless-Steel Valves**, IAPMO approved.

Our products are number **1** in **Appearance, Construction, Performance and Warranty**. Our in-ground pits are heavy duty molded fiberglass or stainless steel with H20 ADA cast iron grates & frames, SS silt and solids basket. **We have a baffled outlet to stormwater for electric free first flush protection.**

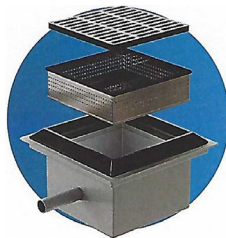

Our Diversion Valves are automatically operated by water or air pressure, **NO ELECTRIC** needed & **we give a Lifetime Warranty on the complete unit.**

We custom build pits to fit difficult site requirements and our exposed grates can be in acceptable colors to blend in with high end home and neighborhood decors.

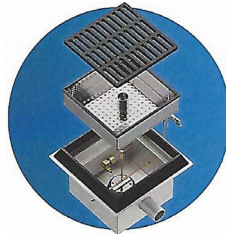

Thanks for taking a look, you can find more specs and information on the eeeusa.net website.

Los Angeles voters to weigh fee increase for streetlight repairs amid copper theft concerns

A citywide plan to replace thousands of broken streetlights across Los Angeles could come with a cost increase for property owners under a proposed Proposition 218 assessment.

Mayor Karen Bass is urging voters to approve the measure, which would raise property-owner fees by an estimated 120% to help fund a \$125 million program aimed at replacing more than 200,000 streetlights citywide. City officials say the current system generates roughly \$45 million and has not been significantly updated since the 1990s, when Proposition 218 was adopted by California voters to require property-owner approval for new or increased local assessments.

Under the law, the city cannot raise streetlighting fees without a majority vote from affected property owners, a process that has kept much of the funding system largely unchanged for decades.

Ballots are expected to be mailed this week.

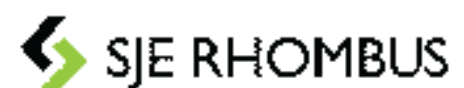

Across Los Angeles, officials say copper theft continues to worsen infrastructure problems, with thieves stripping wire from underground fiber lines and disabling streetlights in neighborhoods across the city. More than 32,000 streetlight repair requests remain pending.

Wouldn't it make more sense to enforce the law and punish people for stealing the copper wire? Isn't that the logical fix for this problem?

When did punishing criminals become a controversial approach to governing a city, and why should the already burdened taxpayers have to fix this problem? Don't they pay enough in taxes?

required to attend.

We also had an excellent turnout at the ASPE Los Angeles 62nd Annual Donald F. Dickerson Golf Tournament held on April 17, 2026, at Brookside Golf & Country Club, with 136 participants in attendance. We would like to extend our sincere thanks to our sponsors for their generous support, including Platinum Sponsors Mainline Sales and Victaulic; Gold Sponsors Delco Sales, Dawson Company, Weil Aquatronics, Signature Sales, Delta Q, and Rheem/Mega Western Sales; Silver Sponsors Lubrizol, Culligan Water, Viega, Jomar Valve, and Daybreak Technologies, Inc.; and Bronze Sponsor Kohler. In addition, eight manufacturers participated with tabletop presentations across both courses, contributing to a successful and engaging event.

Registration is now open for the 2026 ASPE Convention & Expo, which will take place in Oklahoma City, Oklahoma, from October 8–14, 2026. If you are planning to attend, we encourage you to book your hotel accommodations early, as estimated daily rates range from \$200 to \$265 including taxes. Early bird registration is available through June 15 and offers a savings of \$70 per person. Please visit the ASPE website for additional information.

We encourage member involvement and welcome your input. If you have suggestions for future technical program topics, please feel free to reach out to any member of the Board. Stay connected by monitoring your email for announcements and visiting the Technical Calendar on our website for updates on upcoming events.

Thank you for your continued participation and support. We look forward to seeing you at our upcoming meetings.

Stay safe and take care.

and date. The 2026 ASPE Convention will be held in Oklahoma City from October 8–14, with nine delegates representing the LA Chapter. Members who attended the last twelve meetings may be eligible to serve as delegates. The annual fishing trip is scheduled for August 14, and a flyer with additional details will be distributed soon. More information on these events will be shared as it becomes available.

Be well, stay well.

Power that lasts (and lasts).

The Long Term Power System (LTPS) from Chicago Faucets is a new way to power our line of high-performance touchless faucets. The perfect solution for any standard commercial application, the LTPS is designed to provide maintenance-free power for more than 15 years under normal use. No additional wiring, no need for an electrician, and no periodic battery replacement. Just mount the power pack, plug it into the faucet, and enjoy years of maintenance-free operation.

Designed To Last

15-year power system life in most commercial applications without the need to replace a battery.

Easy Installation

Self-contained long life power system unit for easy, under-counter mounting; plugs into faucet in seconds.

An Effective Alternative To Hard-wire Installation

Saves time and eliminates additional electrical installation expense.

Maintenance Free

No replacement batteries needed. Saves time and money.

Upgrade Your Existing Touchless Faucets

The LTPS is a long term, maintenance-free power option for our touchless faucets and is available as a power source option for our EQ® Series, HyTronic®, E-Tronic®, EVR and ELR faucets. Below is just a partial list of available products: visit chicagofaucets.com to see more.
